

SEC Rule 606 Report

For the quarter ending March 2018

Pursuant to SEC Rule 606, Virtu Financial Capital Markets, LLC ("VFCM") has prepared this report containing statistical information about our routing practices for non-directed customer orders.

While VFCM believes the information contained in this report to be reliable, VFCM does not represent, warrant or guarantee that the Report is accurate, complete or up-to-date. This report is for informational purposes only and is not intended as an offer or solicitation with respect to the purchase or sale of any security.

This report is divided into up to three sections: securities listed on the New York Stock Exchange LLC (Network A Securities), securities listed on The Nasdaq Stock Market LLC, and securities listed on the NYSE MKT, LLC and regional exchanges (Network B Securities). Since VFCM does not route options orders, the report intentionally excludes exchange-listed options.

For each section, this report identifies the venues and sets forth the percentage of various types of orders routed to the venues. The material aspects of VFCM's relationship with the venues are discussed in the Notes section.

Securities that are listed on the New York Stock Exchange, Inc.

Non-Directed Orders as a Percentage of Total Customer Orders :			100.00%	
Percentage of Non-Directed Customer Orders That Were:	Market	Limit	Other

Notes

In its efforts to seek best execution, VFCM routes client orders to national securities exchanges, alternative trading systems (ATs), including electronic communications

networks (ECNs) and other market centers. In addition, VFCM is a market-maker on the New York Stock Exchange, NYSE MKT and BATS and BYX Exchanges.

To the extent that venues make payments or offer credits for liquidity taking or making and if these are deemed as "payment for order flow," the firm may be seen as receiving payment for order flow.
